SHOOTING INTENT

- Main route: one continuous walk through Paris; all six locations are within walking distance.
- Further scouting remains to be done, ideally starting where the route ends.
- Visual research: lines, bridges, stairs and contrasts.
- A two-day shoot is envisioned: morning to afternoon, then afternoon to night.
- Shoot in route order; the edit may follow a different sequence.
- One look is envisioned to preserve continuity during the walk. Not finalised.
